

# Circumference

**ANSWERS**

## Section A

$$\text{Circumference} = \pi d$$

$$\text{Circumference} = \pi \times \text{diameter}$$

$$\text{Circumference} = 21.99 \text{ cm}$$

$$\text{Circumference} = \pi d$$

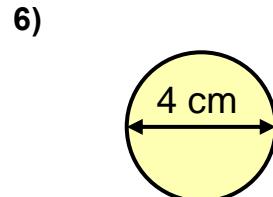

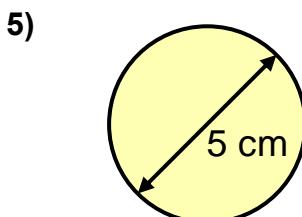

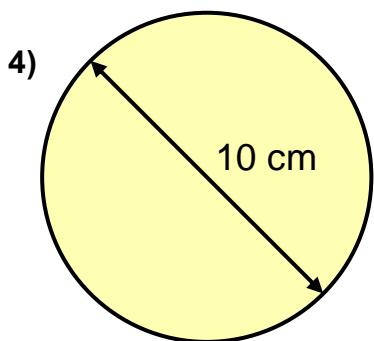

$$\text{Circumference} = \pi \times \text{diameter}$$

$$\text{Circumference} = 37.70 \text{ cm}$$

$$\text{Circumference} = \pi d$$

$$\text{Circumference} = \pi \times \text{diameter}$$

$$\text{Circumference} = 25.13 \text{ cm}$$

$$\text{Circumference} = \pi d$$

$$\text{Circumference} = \pi \times \text{diameter}$$

$$\text{Circumference} = 31.42 \text{ cm}$$

$$\text{Circumference} = \pi d$$

$$\text{Circumference} = \pi \times \text{diameter}$$

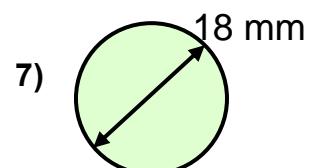

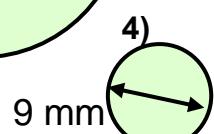

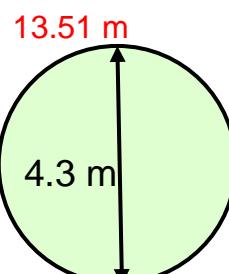

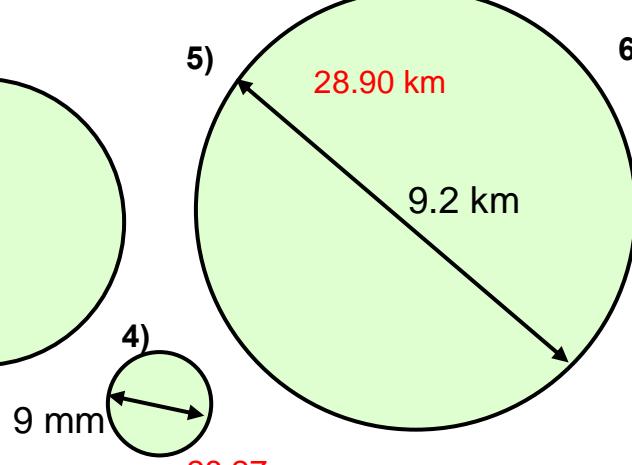

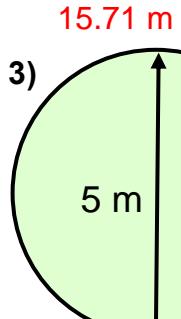

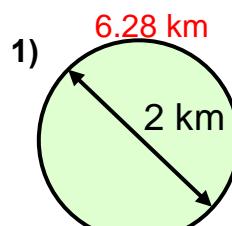

$$\text{Circumference} = 15.71 \text{ cm}$$

$$\text{Circumference} = \pi d$$

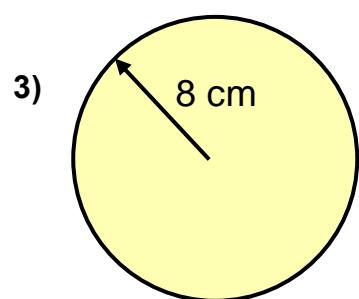

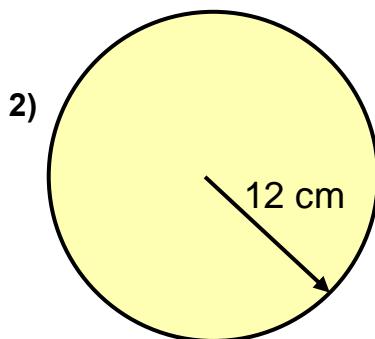

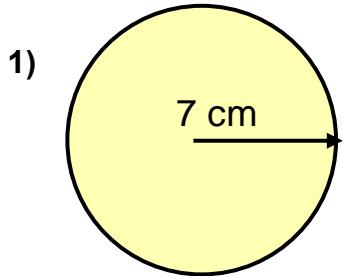

$$\text{Circumference} = \pi \times \text{diameter}$$

$$\text{Circumference} = 12.57 \text{ cm}$$

## Section B

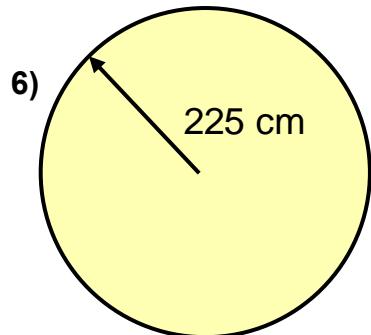

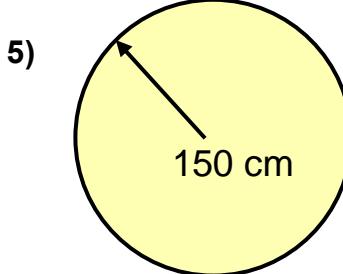

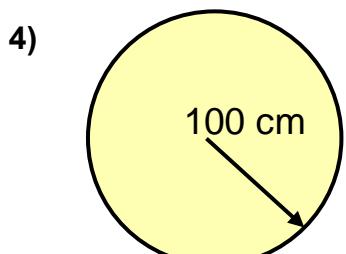

## Section C

$$\begin{aligned} \text{Circumference} &= \pi d \\ \text{Circumference} &= \pi \times \text{diameter} \\ \text{Circumference} &= 43.98 \text{ cm} \end{aligned}$$

$$\begin{aligned} \text{Circumference} &= \pi d \\ \text{Circumference} &= \pi \times \text{diameter} \\ \text{Circumference} &= 75.40 \text{ cm} \end{aligned}$$

$$\begin{aligned} \text{Circumference} &= \pi d \\ \text{Circumference} &= \pi \times \text{diameter} \\ \text{Circumference} &= 50.27 \text{ cm} \end{aligned}$$

$$\begin{aligned} \text{Circumference} &= \pi d \\ \text{Circumference} &= \pi \times \text{diameter} \\ \text{Circumference} &= 628.32 \text{ cm} \end{aligned}$$

$$\begin{aligned} \text{Circumference} &= \pi d \\ \text{Circumference} &= \pi \times \text{diameter} \\ \text{Circumference} &= 942.48 \text{ cm} \end{aligned}$$

$$\begin{aligned} \text{Circumference} &= \pi d \\ \text{Circumference} &= \pi \times \text{diameter} \\ \text{Circumference} &= 1413.72 \text{ cm} \end{aligned}$$

## Section D
